### **DETAILED ACTION**

1. Receipt of the papers filed on September 26, 2005, is acknowledged. Claims 5 and 8 are pending.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 5 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Nagai et al (6,709,563).
4. As indicated in the previous office action, the Nagai et al patent is directed to a copper-plating bath that is suitable for use in electrodepositing copper to form interconnects, including a trench, on a semiconductor wafer. See Figs. 39A-39C and column 1, lines 31-40. The plating bath should include a complexing agent which can improve plating uniformity (column 2, lines 36-42). The pH of the plating bath may be maintained with a range of 7-14 (column 2, lines 57-60). This range overlaps and anticipates applicant's range as recited in instant claim 5 at pH values of 7-8.4. Nagai et al disclose a number of suitable complexing agents. These include ethylenediamine tetramethylene phosphonic acid and diethylenetriamine pentamethylene phosphonic acid (column 3, lines 22-31).
5. Nagai et al further discloses that the copper-plating bath can be used in plating over an outer seed layer to reinforce the thin portion of the seed layer. See the abstract. This portion of Nagai et al teaches the limitation recited in instant claim 8.

*Response to Amendment*

6. Applicant's Remarks have been carefully considered but are not deemed to be persuasive.

At page 4 of the Remarks, applicant indicates that a Rule 131 Declaration is being submitted under separate cover which will antedate the Nagai et al patent. This same statement was made in the response filed by applicant on February 16, 2005. To date, this Declaration has not been incorporated into the file.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
